

# Human GDF15 Protein; His Tag

## **Product Information**

Product Name	Human GDF15 Protein; His Tag				
Storage temp.	Store at $\leq$ -70°C, stable for 6 months after receipt. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.				
Catalog# / Size	GM-87627RP-100 / 100 μg GM-87627RP-1000 / 1 mg				

### **Protein Information**

Alternative Names	GDF-15,MIC-1,MIC1,NAG-1,PDF,PLAB,PTGFB,NRG-1					
Source	Human GDF15 Protein; His Tag (GM-87627RP) is expressed from human 293					
	cells (HEK-293). It contains AA Ala197 - Ile308 (Accession # Q99988-1).					
	This protein carries a His tag at the N-terminus.					
Purity	> 90% as determined by SDS-PAGE					
Endotoxin	< 1 EU/µg, determined by LAL gel clotting assay					
Predicted Mol Mass	13.0 KDa					
Formulation	Supplied as a 0.2 µm filtered solution of PBS, pH7.4.					
Description	GDF-15 is a cytokine protein belonging to the TGF- $\beta$ superfamily. It is widely					
	expressed in the human body, including in tissues such as the liver, heart, kidneys,					
	lungs, intestines, muscles, brain, and pancreas. The expression of GDF-15 is					
	regulated by various physiological and pathological conditions, such as					
	inflammation, tumors, cardiovascular diseases, and metabolic disorders.					
	GDF-15 plays an important role in physiological processes such as cell					
	proliferation, apoptosis, inflammation, and metabolism. It is considered an					
	important inflammatory marker, playing a crucial role in inflammatory responses					
	and immune reactions. Additionally, GDF-15 has been found to be closely					
	associated with the occurrence, development, and metastasis of tumors, affecting					
	tumor growth by regulating cell proliferation, apoptosis, invasion, and metastasis					
	pathways. In recent years, research has revealed that GDF-15 is also linked to					
	many other diseases such as cardiovascular diseases, metabolic syndrome,					
	diabetes, and kidney diseases. Therefore, GDF-15 has become a research hotspot					
	and is widely used in aspects like disease diagnosis, prognosis assessment, and					
	treatment monitoring.					

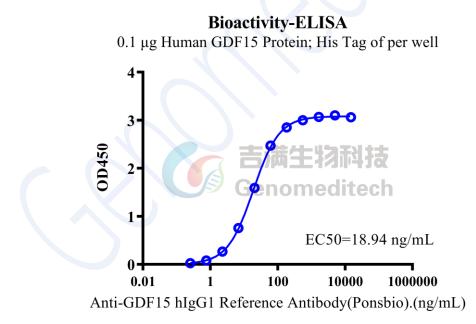

**SDS-PAGE**

On SDS-PAGE under nun-reducing (NR) condition and reducing (R) condition. The gel was stained overnight with Coomassie Blue. The purity of the protein is greater than 90%.

## **Bioactivity-ELISA**

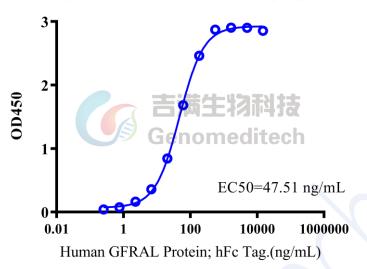

Human GDF15 Protein; His Tag (Catalog # GM-87627RP) was immobilized at 1 µg/ml (100 µL/well). Increasing concentrations of Anti-GDF15 hIgG1 Reference Antibody (Ponsbio) (Catalog # GM-87500MAB) were added.

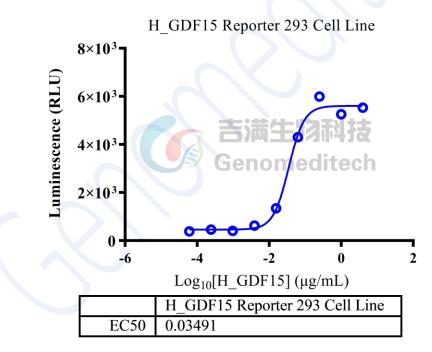

## **Bioactivity-ELISA**

Human GDF15 Protein; His Tag (Catalog # GM-87627RP) was immobilized at 1 µg/ml (100 µL/well). Increasing concentrations of Human GFRAL Protein; hFc Tag (Catalog # GM-87923RP) were added.

## **Bioactivity-CELL BASE**

Human GDF15 Protein; His Tag (Catalog # GM-87627RP) was added into H\_GDF15 Reporter 293 Cell Line (Catalog # GM-C06718), and then GDF15/GFRAL signals were stimulated.
